

VIJAY NAIK NENAVATH

Cyber Security Graduate | SOC Operations | Digital Forensics

+44 7733125871 | vijjunenavath098@gmail.com | linkedin.com/in/vijaynaiknenavath | Bristol, UK (ready to relocate)

PROFESSIONAL PROFILE

I am BSc (Hons) Cyber Security & Digital Forensics student from UWE Bristol, graduating in 2026. Hands-on experience in SOC operations, SIEM monitoring, incident response, vulnerability management, and security compliance. Proficient in Splunk, Security Onion, Microsoft Sentinel, SNORT/Suricata, Wireshark, Nmap, Nessus, and Python scripting. Strong knowledge of ISO 27001, NIST CSF, GDPR, and OWASP frameworks. Excellent written and verbal communication skills with the ability to explain technical findings clearly to both technical and non-technical audiences. A motivated, detail-oriented and collaborative team player — eager to contribute to a cyber security team from day one.

EDUCATION

BSc (Hons) Cyber Security & Digital Forensics

2023 – 2026

University of the West of England (UWE), Bristol, UK

Key modules: Security Management in Practice (ISO 27001), Cyber Security Engineering, Secure Computer Networks, Security & Forensic Tools, OS Security, Global Landscapes of Cyber Security, Forensic Computing Practice, Data Science for Cyber Security, Cyber Security Consultancy, Internet of Things.

Diploma in Computer Science

2019 – 2022

Andhra Polytechnic College, Kakinada, A.P., India

KEY PROJECTS

Microsoft Sentinel SOC Lab | Personal Project — Azure Cloud

May 2026

- Deployed and configured Microsoft Sentinel SIEM on Azure (free student tier); connected Windows Security Events data connector, created data collection rules and wrote KQL detection queries for threat hunting and failed login analysis.

ISO 27001:2022 ISMS — NorthStar Retail Ltd | UWE Bristol — Security Management in Practice Module

2026

- Built a complete ISO 27001:2022-aligned Information Security Management System — Statement of Applicability, risk register (12 risks, 5x5 matrix), compliance metrics, and audit evidence documentation mapped to GDPR and Cyber Essentials.

Security Assessment — Containerised Flask/Nginx Application | UWE Bristol — Cyber Security Engineering Module

2025

- Conducted full security assessment using OWASP ZAP, Bandit, Trivy, Nessus and Nikto; implemented mitigations including input validation, Fernet encryption, HTTPS enforcement and STIG-compliant audit logging. Mapped findings to NIST 800-52, OWASP Top 10 and DoD STIG.

SOC Operations & Incident Response Simulation | TryHackMe SOC Level 1 / Academic Labs

2024 – 2025

- Monitored security alerts using Security Onion, SNORT/Suricata and Splunk; triaged incidents, investigated events, tuned SIEM/IDS rules to reduce false positives, and completed TryHackMe SOC Level 1 pathway covering Cyber Kill Chain, threat intelligence and incident response.

Security Automation & Log-Analysis Scripts | Personal Project / GitHub

2024 – 2025

- Developed Python scripts for automated log parsing, suspicious pattern detection and event enrichment; built PowerShell scripts for Windows event log analysis. Managed projects via Git/GitHub with full version control.

WORK EXPERIENCE

Cyber Operations & Security Analyst | UWE Bristol — Academic Labs

2024 – 2026

- Monitored and responded to security alerts across simulated enterprise environments; conducted vulnerability assessments using Nmap and Nessus, performed incident investigations and produced structured reports for technical and non-technical audiences.
- Designed and configured enterprise networks with VLANs, ACLs, VPN tunnels and firewall policies; performed network traffic analysis using Wireshark to identify anomalous activity.

Networking & IT Support Technician | Silicon Private Company, Kakinada, India

Oct 2021 – Mar 2022

- Configured and maintained routers, switches and VLANs; resolved hardware, software and connectivity issues; communicated technical findings clearly to non-technical clients.

CERTIFICATIONS

- TryHackMe — SOC Level 1 (Blue Team SOC Fundamentals)
- Microsoft Learn — Sentinel Introduction (May 2026)
- Security Blue Team — Intro to Network Analysis (2025)
- Cisco — Introduction to Cybersecurity (Feb 2026)
- Cisco — Networking Academy (Routing & Switching)
- Microsoft Cybersecurity Fundamentals — In Progress (2026)

TECHNICAL SKILLS

SIEM & SOC	Splunk, Security Onion, Microsoft Sentinel, SNORT/Suricata — monitoring, triage, rule tuning, KQL queries
Security Tools	Wireshark, Nmap, Nessus, OWASP ZAP, Metasploit, Trivy, Bandit, FTK Imager, Autopsy
Scripting	Python (automation, log parsing), PowerShell (event log analysis), Bash, Git/GitHub
Compliance & GRC	ISO 27001, NIST CSF, GDPR, Cyber Essentials, OWASP Top 10, DoD STIG — mapping & documentation
Systems	Windows 10/11, Linux (Ubuntu/Kali), Docker, TCP/IP, VLANs, VPN, DNS, pfSense, Azure
Frameworks	Cyber Kill Chain, MITRE ATT&CK, Incident Response, Threat Intelligence, Vulnerability Management

ADDITIONAL INFORMATION

Right to Work: UK Graduate (Post-Study Work) route — no sponsorship required. **Driving Licence:** Full UK driving licence.

Relocation: Willing to relocate anywhere in the UK.

Languages: English (fluent), Hindi, Telugu, Urdu.
